

International Studies Careers: Global Health

Speakers Hannah Lider and Vijay Limaye will discuss how to leverage your international and regional studies to achieve your career goals in Global Health. Register to learn about:

- career advice and ways to network
- recommendations for skills development
- practical issues on career searching

The talk will be moderated by Sarah Beckham, Associate Director of the Center for South Asia at UW-Madison.

Registration for the event is open to all undergraduate and graduate students interested in international careers. We encourage you to bring your questions!
